
Apple Final Cut Studio

Livetype Fundamentals

Duration: 1 Day

Course Description:

In this one-day module, you'll learn to use Final Cut Pro's companion application LiveType to create sophisticated, professional-quality titles for film, TV and video using Apple's revolutionary LiveFont animated font technology. New integration capabilities let you edit and automatically update LiveType projects in Final Cut Pro more quickly and easily than ever.

Course Content:

Setting up your system: Preferences and project settings
